

The Science Museum is fun!

I go to the Science Museum with my teachers and schoolmates
in the morning. We go by ferry.

I play on the computer on the first floor. A shark swims out.

I see some dinosaurs on the third floor. They touch me.

I see some funny mirrors on the fourth floor. I see a funny me.

I see some big crabs running out of a photo on the fifth floor. I
feel surprised.

I play with the animals. The Science Museum is fun!
