

The School Picnic

The weather is sunny and cool today. It is the school picnic day. We go to Sai Kung Country Park by a coach with my teachers and classmates.

After an hour, we arrive at Sai Kung Country Park. Then we have a barbecue in the afternoon. We are chatting and laughing loudly. After that, I play hide-and-seek with my friends.

When we are leaving, we see rubbish everywhere. There are many cans, bottles, paper dishes and plastic forks on the grass. It is so smelly and messy everywhere.

I feel very disappointed because my classmates dump rubbish everywhere. I believe that unity is strength. We should pick up the rubbish together and make the park clean again. Finally, we put cans and plastic bottles into recycling bins. My teachers also help us to clean up the barbecue site before we leave.

After the school picnic, I believe that we all have the responsibility to protect our environment.
