

My Best Friend

My best friend is Tom. He is different from me. He is nine years old. We always play with each other. We study in Meng Tak Catholic School. We study in the same school. He is in John House. I am in Mark House. We are in different houses.

Tom is very tall. I am shorter than him. He has short hair, small eyes, big ears and a small nose. His nose is the smallest in class. His eyes are as small as ants and his face is as round as a ball.

Tom is polite. He doesn't fight with others. He is calm. If others play tricks on him, he will not be scared. He is healthy. He seldom eats snacks or unhealthy food. He always eats vegetables and fruit. He always drinks water too. Tom is sporty. He always does sports. He is sportier and healthier than me. Tom likes Maths. He always gets the highest marks in Maths tests and exams.

Tom is energetic. He likes playing online games, cycling and having a picnic. He plays online games three times a week and goes cycling three times a month with me. My family and his have a picnic two times a month. We enjoy it very much.

I also like playing Legos, going cycling, going skateboarding and playing online games with Tom. We like playing online games on Mondays and Thursdays.

I like Tom very much. I wish we can be friends forever. I hope I can play with him forever and I will always cherish this friend.
