

## My best friend

By Marco Yung

My best friend is my tutor, Jessie. She is kind and patient. She teaches me with love and passion. She helps me with my homework.

We are different ages. Jessie is 24 years old, while I am only 10 years old. Also, we are different heights as she is taller than me. She has black eyes, small ears, a small nose, curved lips and straight brown hair.

Jessie and I like different subjects. I like P.E. best but Jessie likes English more than P.E. because she is fond of learning languages. She likes reading English fables and folklore. Reading is a good way to enhance her word bank, so she reads three times a week. Unlike Jessie, I read once a week only. I should really learn from her.

She is the kindest person I have ever seen, so she has a lot of friends around her. At the same time, she is diligent as she works all day long and takes good care of her little sister.

Being passionate about teaching, she wants to be an English teacher in the future and works closely with kids. I believe that she will achieve her dream.
