

My First Day at MTCS

6C Siu Kwan Yi, Annie

Time flies so fast. I have spent six years at Meng Tak. However, I still remember what happened to me on my first day at Meng Tak.

When I arrived at school, there were many teachers and senior students waiting at the school hall. They were ready to take us, the newcomers, to walk around the school campus. A senior-form student showed me around so that I could know more about the school. At the beginning of the day, I was a bit nervous because I didn't know anyone. Then, I met my first friend, Carson. We shared snacks and chatted happily in the playground. We are still very good friends now. Since I knew more friends, I felt better and more relaxed. My classmates invited me to play in the playground during the second recess. I was so happy and I looked forward to the next school day.

In these six years, my most unforgettable moment was the time with my 'Big Sister'. Her name is Tsang Yuk Man. I remember how she encouraged me when I was sick before my mid-term examination. At that time, I was very worried because I might not be able to attend that exam. Tsang sent me a get-well card with the message, 'Don't worry, I will always stand by you!' I was so touched. Luckily, I recovered in time and I got good results in that examination.

I wanted to thank my principal and teachers as they devoted their love and time to nurturing us. I particularly want to thank Miss Li, my primary six Chinese teacher, because she is very patient when teaching me. She always encourages me when my examination results are not satisfactory. She always motivates me to do better next time.

I enjoy my school life at MTCS very much. I remember all the moments I have spent with my beloved classmates and teachers. I hope I will have a joyful secondary school life in the future.
