A Grateful Day

Yesterday, I was walking to the stationery store when I heard a sound coming from the corner of the road.

I walked towards the corner of the road and found a box at the corner of the trash can. There were barking sounds from the box, I was shocked to hear such a noise from the box.

I was very curious, so I opened the box. When I unwrapped the box, there was a stray dog! I couldn't believe my eyes! The dog very dirty and skinny. I know that I had to do something, therefore I carried the box home.

When I arrived home, I quickly found some dog shampoo and took a small bathtub to the bathroom. I checked the temperature of the water and put the stray dog in. The dog was joyful and splashed around the water. I washed the stray dog and then dried it. I found some old dog food and fed it to the dog. It ate very quickly, and I thought it must have been starving!

In the end, I name it Benny. Benny is very strong and healthy now.
