Ocean Park Experience

Hi Ken,

How are you? I had an unforgettable day yesterday. My family and I went to Ocean Park, it is famous for the animals inside. We were so excited when we were at the entrance which was full of people already.

When we went inside, we didn't know where to go first because there were a lot of attractions to go to such as roller coasters, food booths and lastly the Ocean Theatre! My favourite place is the Ocean Theatre as there is a Dolphin Show where you get to see the cute and talented dolphins do tricks.

"Attention, the Dolphin Show will begin in a few minutes, please go to the Ocean Theatre and wait for the show to start. Thank you." I was so thrilled when I heard the announcement. I couldn't wait to see the show.

The show finally started, and the audience were astonished by the dolphins flying in the air in sync and splashing water at us. Then, a man came and signaled the dolphins to come towards him. "Hello, my name is Ryan, a worker at the Ocean Theatre. The dolphins look hungry. Who volunteer to feed them?" As I heard what the worker said, I quickly told my sister to volunteer with me.

We got invited up to the stage. Ryan told us what to do and we did the steps as he instructed. While I was feeding the dolphins, my cap fell off my head and was blown into the water. Suddenly, one of the dolphins jumped into the air and caught the cap. Although I was soaked in water because of the splash, I was amazed and touched by the dolphin's skills.

I didn't know dolphins could be this intelligent. I am now more curious about this animal. Hope I can come here again soon. I look forward to hearing from you soon.

Best wishes,

John
