

My Best Friend By Cherie Siu

My best friend is my classmate, Ruby. We always do skipping together. We have a lot of fun.

Ruby is 9 years old. We are the same age but we are different heights. She is shorter than me. She has two small ears and a small nose on her round face. Her eyes are big and round like a pair of diamonds. Ruby does not like long hair so she cuts her hair short. Her hair is shorter than mine.

Ruby likes Chinese and Music best. Besides, she likes eating and skipping. She is kind and pretty. She is the fastest runner in the class because she practices running every Tuesday and Friday. We often do skipping at weekends. I enjoy skipping with her. She is also good at telling jokes. She always makes people laugh. She is humorous.

Ruby is also a hard-working girl. I think she is more hard-working than me because she always helps her mum with the housework. She makes her bed and sweeps the floor every day.

In the future, Ruby wants to be a nurse. She wants to look after sick people in the hospital. She is very kind. I want to learn from her and be a better student in school!
