

Dear Laura,

How are you? Thanks for writing to me. Let me tell you about my best friend, Yinnis.

Yinnis is nine years old. We are the same age but we are different heights. Yinnis is taller than me. She has two small eyes and a small nose on her oval-shaped face. Her eyes are almost as thin as straight lines. My eyes are so much bigger than hers. She has long curly hair. She has the longest hair in our class.

Yinnis likes swimming and playing computer games because she likes swimming in the sea and she thinks computer games are fun.

Yinnis' favourite subjects are Mathematics, Visual Arts and Computer Studies. Her most favourite subject is Visual Arts because she wants to become an artist in the future.

She is weak in English because she doesn't know the correct words to describe her ideas.

Yinnis is very hard-working because she always studies hard for the exams.

Will you be free at Christmas to have fun with me and my best friend? Please write me soon and bring your best friend with you.

Love,  
Sora
