

Speech introducing a day trip to Ocean Park

I am Suki, a programme planner working in Ocean Park. Today I will share with you our newest educational day trip tailor-made for you. With only eighty dollars, you will be able to enjoy six attractions with our guides. We will start our tour from The Waterfront.

The first attraction will be Panda Village. You will see adorable otters and rare birds. The second attraction will be Animal Rescue. You will understand the roles of Ocean Park vets in animal rescuing. It will cost eighty dollars. It will be a 45-minute tour. Both attractions are related to your General Studies learning topic of 'Exploring Earth'.

Then, we will travel from The Waterfront to The Summit, which will take 30 minutes. The third attraction will be Sea Jelly Spectacular. You will meet over one thousand jellyfish of all sizes, shapes and colours from around the world. The fourth attraction will be Shark Mystique, you will learn some fun facts about these beautiful sea creatures. Both attractions are related to your General Studies learning topic of 'Exploring the World of Water'.

Let me tell you about the last two attractions. The fifth attraction will be Little Meerkat and Giant Tortoise Adventure. You will visit energetic meerkats and slow Aldabra Giant Tortoises. The final attraction will be South Pole Spectacular. You will see the King Penguins and other penguins. Both attractions are related to your General Studies learning topic of 'Exploring Earth'.

The trip sounds fun to me, I hope you will enjoy and learn a lot at Ocean Park.
