

Dear Rose,

I want to be a good student this year. Let me share with you some of my ways of becoming a better student.

When I am in the classroom, I should be nice to the teacher. If I am mean to the teacher, the teacher will be mean to me. I shouldn't run in the classroom because I may hurt myself!

When I go to the library, I should be careful not to damage the books and I shouldn't write on the books too because others can't read it if I write on it. So be nice to books.

Here are some more good ways! In the computer room, I should keep quiet and shouldn't search something stupid! For example obscene photos, violent games and bad language.

When I am at the vending machine, I shouldn't buy too many drinks! I shouldn't press the buttons aggressively because the button would break.

I believe I will be a good student and stay determined.

Love,  
Ason
