

About Myself

My name is Li Ka Man. I am studying in Meng Tak Catholic School. I have been a prefect since I was in P4. As a prefect, I need to help teacher take care of schoolmates. Therefore, I always behave myself well in order to be a role model of others. I enjoy my school life at Meng Tak Catholic School because there are lots of extra-curricular activities for us to attend and I get along with my classmates. Moreover, the school campus is big and beautiful.

My favourite subject is General Studies because it is very interesting. I can learn knowledge about daily life. I read news every day in order to know about the social issues in the world. I am good at Art and Crafts because I like to create something in the lessons to express my own feelings and ideas.

I am a member of choral speaking team. We practise twice a week after school. We had taken part in an inter-school competition. Despite the tough training, I am proud of being a member of my team because I treasure the team spirit among us very much.

I like reading in my leisure time. I like detective stories and fictions. Reading can help me get more exposure. Moreover, I usually go to amusement parks and shopping malls with my family at weekends. I enjoy the family time very much.

I want to be a doctor when I grow up because doctor can help the sick and needy who suffer from pain and illness. To make my dream come true, I need to study hard so that I am eligible to study in medical school. On the other hand, I will try to do more volunteer work to build up my characters and self-confidence.
