A meaningful birthday

Last Sunday, the weather was very nice. White clouds drifted across the blue sky. It was my birthday. Mum and Dad gave me $200 for my birthday present and they said that I could buy anything I want. "What a wonderful surprise!" I was filled with excitement.

In the afternoon, I went to STAR Toy Shop with mum. There were many kinds of toys and all of them were very attractive. I chose the most special robot and used $100 to buy it. I couldn't believe my eyes! I was as happy as a lark.

In the evening, I had dinner with mum and dad. All of us were having dinner when we heard a bad news on TV. Our jaws dropped as we watched the news. There was an earthquake in China, it was extremely terrible! Numerous people were injured seriously and the buildings were all collapsed. The earthquake was destructive.

All of a sudden, I had a fantastic idea. I decided to donate $100 to the charity organisation. I got satisfaction and I found it meaningful as I help people who are in need.

What an unforgettable birthday!
