

## The Strange Science Museum

I go to the Science Museum with my teachers and classmates in the morning by ferry. First, I play on the computer on the first floor. Suddenly, a shark swims out. I am shocked. Then, I see some dinosaurs on the third floor. They kiss me. I feel warm. After that, I see some funny mirrors on the fourth floor. I look at them. I see a scary teacher looking at me. I am scared. Later, I see some animal pictures on the fifth floor. I touch a picture. I see some gorillas and elephants. They walk out. I have a party with them. I feel terrific. The Science Museum is strange!
